WHO WE ARE NORTH HILLS GENEALOGISTS

We are a group of genealogy enthusiasts who meet on a regular basis to assist one another in establishing our family histories. We meet on the third Tuesday of every month, except December, at the Northland Public Library, 300 Cumberland Road, McCandless Township in the North Hills of Pittsburgh, PA. Tip Time begins at 6:45 P.M., and our general meeting commences at 7:00 P.M. Our meetings are free and open to the public.

We publish a newsletter ten times a year for a nominal membership fee of \$15.00 annually. The subscription year runs from August to June, but anyone wishing to join the North Hills Genealogists mid-year will receive back issues of the newsletter for that membership year. Previous years' newsletters are also available for purchase, each containing helpful hints for beginners and for experienced genealogists.

The North Hills Genealogists Board meets at 7:00 P.M. on the first Tuesday of each month in the Conference Room of the Northland Public Library. The Board meeting is open to all members of the North Hills Genealogists organization. Consider joining us this year!

PRESIDENT'S CORNER

In last month's column I started the story of the search for my great-great-grandfather Richard Williams's gravesite. He was killed along with three of his shipmates in an accident aboard the steamship *Louisiana* on Lake Erie in 1849, and the location of his grave, if it even existed, was unknown. Finally, after many false starts, my brother and I discovered that in fact he was buried, along with the three others, in the "village burying ground" at Conneaut, Ohio.

So now the search switched to finding the "village burying ground." The traditional sources that we contacted - the Library reference desk, City Hall, etc. - said that it had to be the Conneaut City Cemetery, the oldest cemetery in the area. But everyone also told us that there were bodies interred there that had no headstones, and while there were some readings recorded, they were not complete. Hours were spent combing the cemetery and readings available in the library to no avail. No prime candidate markers were apparent; of course, the specter of his plot not having one at all was always on our mind.

After one cemetery search, we decided to stop in at a local fast-food spot for lunch. Since it was Friday and the restaurant was conveniently nestled in an area which included City Hall, the library and the high school, we felt there was a good chance that Friday lunch "regulars" might be gathered there and be open to questions. In fact, four tables were filled with obvious "regulars" who could not have been happier to discuss our project! While they all agreed that the village burying ground was undoubtedly the City Cemetery, nothing new was turned up in the conversations. However, we were directed to a local barber, Jim Anthony. Mr. Anthony, we were told, was the town expert on the maritime history of Lake Erie.

We located Mr. Anthony in his shop, high on a bluff overlooking the lake and the Port of

Conneaut. He was one of the more delightful individuals we met during our search, and he was ecstatic to meet us. His shop was filled with maps, pictures, and memorabilia of the lake, and he was filled with fascinating tales of its history. Alas, one of the few gaps in his knowledge was the accident that killed our Richard! He had not heard of it, so we were happy to supply him with the details. Having added to our general knowledge, although nothing specific to our quest, our chat with him was brought to an end by the appearance of a customer. Business first!

Somewhat discouraged at this point, we decided to head for home. But we ended up making one more stop. And that is where we will begin the final installment of this story in May's NHG Newsletter.

Your help is needed! January's newsletter spoke of the efforts by the People for Better Pennsylvania Historical Records Access to have older death certificates digitized for preservation. The NHG Board endorses this effort and is sending letters of support for it to Governor Rendell, State Senator Jane Claire Oriole and State Representative Mike Turzai. If you agree with this cause, would you please consider also sending letters to the Governor and your State Senator and Representative? More specific information, including sample letters and addresses, can be found at <http://users.rcn.com/timarg/PaHR-Access.htm>. Thanks!

HIDING BEHIND THEIR SKIRTS: FINDING WOMEN IN RECORDS

Elissa Scalise Powell, CG, will present a program focusing upon our female ancestors. Because women change their names during their lives and because of the historical status of women, finding your ancestresses can be challenging. During this program you will learn some of the techniques and unusual records that may contain information on the missing females in your family tree.

Women traditionally and historically have not participated as fully as men in creating records and therefore are not as accessible to researchers. Research for our women ancestors must be done by connecting them to others in their family, social, economic, and church circles. Maiden names may be discovered on the records of the women's children, church records, or courthouse records. The trick is to ever-widen the sphere of influence and discover all possible records referring to the subject and her family. This lecture gives concrete examples of how to search for the lost women on our pedigree.

Elissa Scalise Powell, CG, a western Pennsylvania researcher, is the Professional Genealogy Course Coordinator at the Institute of Genealogy and Historical Research at Samford University. She is a Trustee for the Board for Certification of Genealogists, their Exhibit Booth Coordinator, an instructor at the Salt Lake Institute of Genealogy and a regional and national speaker on such topics as Pennsylvania records, methodology, professional development, and society management. She was a Director for the Association of Professional Genealogists for 6 years; co-edited a cemetery book series, and appeared on the PBS-TV show "Ancestors 2" in the cemetery episode. She is a past-President of the North Hills Genealogists [of Pittsburgh] and of the Western Pennsylvania Genealogical Society and a contributing author for many publications.

MacInnes, PhD, presenting "Using Land Records to Trace Your Ancestors." Land ownership maps are one of the most valuable, yet underused, tools available to researchers. Sharon MacInnes, PhD, of *Ancestor Tracks* discusses a new series of atlases showing pages of the land tracts, drawn in metes and bounds, of the earliest landowners of Pennsylvania. Each page reveals a wealth of information since neighboring tracts were usually owned by relatives, witnesses, and sponsors. Books and CDs have been completed for Berks, Fayette, Greene, and Washington Counties. *Ancestor Tracks* plans to eventually publish books of all counties in Pennsylvania for which such maps exist. They have also published CDs containing .pdf files of all the Warrant Registers on file in the PA Archives in Harrisburg; one containing all of the Patent Register Indexes in the PA Archives; and a third CD containing the Tract Name Indexes to all of the tracts given names when they were patented. Visit their website at <http://http://www.ancestortracks.com/> to obtain more information.
